PRES. COOLIDGE PROGRAM RUNS TRUE TO FORM

EXECUTIVE IS WELL NIGH IN COMPLETE CONTROL

PRESIDENT STRESSED ECONOMY AS MAIN POINT, CONGRESS ADHERING TO BUDGET

SUGGESTIONS OF COOLIDGE AND MELLON ADOPTED IN RECENT TAX BILL

By PAUL R. MALLON
(United Press Staff Correspondent)
Washington, March 3.—President Coolidge, rounding out today a year in office in his own right, has accomplished, or seems about to accomplish, every important item of legislation he advocated in his initial program.

With the third month of the 69th congress ending this week, Mr. Coolidge finds himself in well high complete control, since senate and house defections from the leadership of the chief executive have been only upon minor matters.

Here is how the recommendations made by the president have worked out:

Economy—The president stressed this as major point of his message and congress has adhered strictly to the budget.

Taxation—Chief suggestions made by the president and Secretary of the Treasury Mellon were adopted in the tax bill rushed through by republicans and democrats of both houses.

World Court—Democrats combined with republicans for adoption of the resolution for American adherence to the world court, with acceptable reservations.

Foreign Debts—The debt settlements with Belgium, Italy, Czechoslovakia, Latvia and Estonia totalling \$15,078,181,993.88 have been adopted by the house and Chairman Smoot of the senate finance committee, predicts their early passage in the senate. Democrats have been unable to agree on opposition to the settlement with Italy as a party issue.

Muscle Shoals—The house has already adopted and the senate is about to adopt the Coolidge resolution for appointment of a special congressional commission to lease the \$137,000,000 Tennessee river project.

Railroads—The Watson-Parker bill abolishing the railroad labor board and providing a potential end of railroad labor strikes, has been adopted by the house and will be adopted by the senate in the manner the president suggested.

The consolidation bill, which he sanctioned is being made ready for presentation in the senate.

National Defense—His recommendation for army and navy development have been carried out as far as appropriation bills thus far adopted could carry them out. The Wadsworth bill containing the recommendations of his Morrow board has been reported to the senate and will be taken up before adjournment.

Farm Relief—The co-operative project he sanctioned has received favorable action in the house and will be taken up in the senate as soon as more pressing matters are disposed of.

FINAL CHAPTER IN CONG. SCOTT DIVORCE CASE

Detroit, Mich., March 3.—(UP)—The final chapter in the sensational divorce suit involving Congressman and Mrs. Frank D. Scott of Michigan, has been written here with granting of an absolute decree to Mrs. Scott on grounds of desertion.

Settlement of the suit was in marked contrast to the original action started by Scott at his home in Alpena late in 1924, when alleged scandal in official Washington featured his unsuccessful efforts for separation.

Scott filed no answer to his wife's suit and though represented by counsel, left uncontested her allegation of desertion from December 23, 1922. Counsel for Mrs. Scott announced a property settlement satisfactory to his client was effected out of court.

The Scotts were married in Santa Rosa, Calif., in 1914.

BELGIAN SENATE RATIFIES THE LOCARNO TREATY

Brussels, March 3.—(UP)—The senate today unanimously ratified the Locarno treaty.

During the debate preceding the vote Foreign Minister Vandervelde asked freedom to negotiate as the situation dictates when enlargement of the League of Nations council comes up for discussion at Geneva next week.

ILLINOIS IN SPOT LIGHT, TO MODIFY DRY LAW

QUESTION OF PROHIBITION IS SQUARELY UP TO VOTERS IN NOVEMBER

GEORGE A. BRENNAN, DEMOCRATIC CANDIDATE FOR SENATE, WITH WET BANNER

By MAX BUCKINGHAM
(United Press Staff Correspondent)

Chicago, March 3.—Illinois today became the central scene for a national fight to modify the Volstead law.

The question of prohibition will be put squarely up to the voters of Illinois at the November election with George A. Brennan carrying a clear cut "wet" banner as democratic candidate for United States senator.

Brennan, who achieved national distinction by directing the 1924 campaign of Governor Al Smith for the presidency, but who has been the "power behind the throne" in Illinois democracy ever since the death of Roger Sullivan, last night announced his candidacy for the senate. The chief plank in his platform is modification of the Volstead law.

"This election will be a referendum in Illinois on Volsteadism," Brennan declared. "But in reality it will mean far more than that."

"If I am elected it is a virtual certainty that the next congress will modify the dry law. For, if Illinois goes wet, on an official vote, then the members of congress who think wet will vote dry, will take this as the general will of the people."

Brennan announced he would conduct an extensive campaign throughout the state and further announced that Governor Smith and Mayor "Jimmy" Walker of New York, would come to Illinois and take the stump for him. Joseph Tumulty, secretary of the late President Wilson, also may campaign in Illinois for Brennan.

Brennan's republican opponent will be either Senator William McKinley, incumbent, or Colonel Frank L. Smith, who will fight it out for the republican nomination at the April primaries. The prohibition issue has not been raised in the McKinley-Smith contest, the chief issue in the republican race for nomination being the world court, with Senator McKinley sponsoring it and Smith bitterly attacking it throughout his campaign.

WAR DEPARTMENT RECOMMENDS FIVE YEAR AIR PROGRAM

Washington, March 3.—(UP)—The war department today recommended to congress a five year aviation program providing a force of 16,650 men with 2,200 planes.

Increased expenditures of \$15,000,000 are entailed. Secretary of War Davis, in an adverse report to the house military affairs committee on the James bill, embodying the 10 year Lassiter program, supported the Morrow board suggestion of a five year program.

Cleanup of Moonshiners

Milwaukee, Wis.—Cleanup of moonshiners operating near the Menominee Indian reservation was believed near with the appearance before the federal grand jury here yesterday of 13 Indians from the reservation. It is believed they are appearing as witnesses in liquor cases. Witnesses called from northern Wisconsin counties indicates a move to clean up moonshine activities in that section, where many Kentuckians have settled, because of better markets for the product.

CLAIM 5 NUNS VICTIMS OF A RARE DISEASE

ENCEPHALITIS DEFINED AS THE INFECTIOUS MALADY

POISONOUS FUMES FROM WOOD STAIN FIRST BELIEVED RESPONSIBLE

Dickinson, N. D., March 3.—(UP)—Five nuns who became ill at the same time and died here within 10 days were victims of encephalitis, an infectious disease little understood, according to a coroner's jury verdict reached late yesterday.

Two of the nuns died February 15, soon after they were stricken, while on an inspection tour of a new wing at St. Joseph's hospital. The others died one by one until the last of the inspection party was gone. Poisonous fumes from wood stain were at first believed responsible.

The natural death verdict of the coroner's jury was based upon a report by Dr. H. M. Banks, acting dean of the medical department at the state university, who conducted post mortem examinations of the victims. Encephalitis often takes the form of sleeping sickness or brain fever, he explained, and is imperfectly understood.

KELLOGG REFUSES ANY INFORMATION

VOUCHERES NO REASON FOR EXCLUDING COUNTESS KAROLYI

Washington, March 3.—(UP)—Secretary of State Kellogg today refused to give the senate foreign relations committee the reasons for his exclusion of Countess Karolyi, wife of the former president of Hungary, from the United States.

Kellogg appeared before the committee behind closed doors in response to an invitation from Senator Borah of Idaho, republican chairman.

He opposed adoption of the Borah bill, which would repeal the section of the immigration law under which the Countess of Cathcart was barred from the country.

CRAZED MAN GIVES WAY TO NERVOUS SUSPENSE

Milwaukee, Wis., March 3.—(UP)—After a day of suspense while waiting for his mother to be operated on, Richard Biletz, 33, finally broke under the nervous strain and leaped from the fourth story of the Deaconess hospital here last night.

Although he suffered a compound fracture of the leg, possible skull injuries and numerous cuts and bruises, attending physicians today had hopes of his recovery.

Biletz was not a patient at the hospital but had been there since early morning when his mother underwent a major operation. He paced the corridors nervously all day and suddenly made a dash for a window and jumped through the glass. He jumped just as he had been informed his mother had recovered from the anaesthetic and her condition was good.

DEADLY MONOXIDE GAS OPERATES WHEN GARAGE DOOR CLOSED

Milwaukee, March 2.—(UP)—Leaving the motor of his automobile running after the garage door had blown shut, caused the death here last night of Truman D. Kemler, president of the Wisconsin White company, motor truck firm.

The body was found by John Schlatterer, who, hearing the car running, went to investigate and saw the body. He removed the body into the open air and called police, but it was too late.

L. P. Wolff is Nettled
Mankato—L. P. Wolff, St. Paul, consulting engineer threatened to withdraw his services to Mankato when Councilman J. W. Johnson charged him with inefficiency. Wolff declared that in 25 years of experience he had never received such "insulting treatment."

SECRETARY OF THE FAT MAN'S CLUB IS SADLY HANDICAPPED

Boston, March 3.—(UP)—G. Everett Stackpole, who, by virtue of his 400 pounds, holds the office of secretary in the United States Fat Man's club, failed to appear for the club's monthly meeting here.

It was the first meeting he had missed and other members, alarmed, telephoned his home in Stoneham.

"What's the matter, sick?" Stackpole was asked.

"No."
"Somebody in the family sick?"
"No, there's nobody here to tie my shoes. I can't reach 'em or anywhere near 'em myself and I won't come with my shoes untied."

OLD TIME DANCES UPSET ESSEX, IA.

OLD TIME RADICALS RESENTING DANCING VIRGINIA REE

Essex, Ia., March 3.—(UP)—Henry Ford's old time dances may be considered uplifting in Detroit, Bangor, Me., and points east, but they are anathema in this peaceful little village where dancing, theaters and "other inventions of the devil" have been prohibited for 26 years.

Taking his cue from his chief the local Ford dealer last week tried to stage the old time dances here. Five hundred of the towns 800 inhabitants attended, but when the dancers essayed a Virginia Reel, the party was halted by the town constable.

Although in the minority, the 300 radical church members declared that "not even Henry Ford can corrupt our town."

The young folks retaliated by going to Red Oak, nearby town, where an imported jazz band was dispensing everything but old time dance music.

As a result of the attempt to install dancing the town is divided into two hostile camps. Miss Bertha Engstrom, Ford employee, who acted as "hostess" at the dance, was asked to leave her boarding place, but was immediately taken in by the brother of the man who asked her to move.

N. P. TRAIN CREW SAVES GIRL

GENEVIEVE MASSEY NEARLY DROWNED IN RIVER NEAR LITTLE FALLS

Little Falls, Minn., March 3.—(UP)—A Northern Pacific train crew saved 8-year old Genevieve Massey from drowning in the Mississippi river here today when its members succeeded in dragging her to solid ice from the place she fell through.

Adeline Simmons, Genevieve's playmate, attracted the attention of the crew to her companion's plight. With the aid of planks, the men won their way to the jagged edge where the child had fallen in while playing.

No ill effects are expected. Genevieve is the daughter of Mr. and Mrs. Gerald W. Massey, Jr.

WAGE DISPUTES WITH RAILROADS "UP IN THE AIR"

SENATE MAY FOLLOW HOUSE ABOLISHING RAILROAD LABOR BOARD

BILL, HOWEVER, MAY MEET KEENER OPPOSITION IN THE SENATE

Chicago, March 3.—(UP)—Wage disputes on the nation's railroads involving approximately \$30,000,000 will be left "up in the air" if the senate follows the house in passing the Watson-Parker bill abolishing the railroad labor board, members of the board said today.

With the bill coming up in the senate within a few weeks, members of the board stated that they hold no hope for existence of the board beyond a few weeks. However, they did not say they expected the measure to meet with keener opposition in the senate.

It was pointed out that the bill makes no provision for handling pending cases, but specifies for immediate dissolution of the board. This makes members of the board wonder what will be done with the cases now pending.

Ben Hooper, chairman of the board, already has packed some of his personal effects in his office and is reported to have left for his home in Newport, Tenn.

IOWA PRINCIPAL SHOCKS PARENTS

CLAIMED HE TAUGHT FUTURE ACCEPTANCE OF NATURAL WEDLOCK

Sharon City, Ia., March 3.—(UP)—When parents complained that Guy Stockdale, principal of the consolidated school here, had been teaching the future acceptance of natural wedlock without a marriage ceremony, Stockdale resigned.

C. E. Finch, chairman of the school board which accepted the principal's resignation without question, stated that Stockdale denied the statements attributed to him in rumors throughout the village crediting him with "teaching the children things they should not hear."

The principal who taught agriculture and zoology, said he merely told his class of instances where natural wedlock without a marriage ceremony existed as a general practice.

BANKERS OF MIDDLE WESTERN STATES MEET

Topeka, Kan., March 3.—(UP)—Bankers of middle western states will continue in session here today in their 15th annual conference to consider state banking problems. The conference opened yesterday with an address of welcome by Governor Ben S. Paulen of Kansas.

Delegates registered from 14 states including Illinois, Indiana, Michigan, North and South Dakota, Nebraska, Wisconsin, Ohio and Iowa. Mrs. Helen M. Brown, of Des Moines, president of the Central States Bankers association, is presiding at the sessions.

Believe U. S. Ambassador Sheffield is to Resign Soon

Mexico City, March 3.—(UP)—Many Americans predicted the early resignation of United States Ambassador James R. Sheffield, owing to the activities of United States Special Claims Commissioners Warren and Payne, whose conferences are regarded as encroaching on the ambassador's functions.

Alton, Ill., March 3.—(UP)—One hundred and two descendants survive Henry Brock, 86, who died here yesterday. They include six children, 40 grandchildren, 52 great grandchildren and four great great grandchildren. Brock came here from Germany in 1860.

FOUR SOFT DRINK PLACES PADLOCKED IN SUPERIOR, WIS.

Superior, Wis., March 3.—(UP)—Four soft drink parlors here were under padlock today by order of Federal Judge C. Z. Luse. Temporary injunctions were issued invoking the one year padlock.

ALL PROPOSED AIR LEGISLATION REJECTED TODAY

ARMY PLANS FIND NO FAVOR WITH HOUSE MILITARY COMMITTEE

COMMITTEE VOTES TO DRAFT A NEW BILL OF ITS OWN

By WILLIAM J. McEVROY
(United Press Staff Correspondent)

Washington, March 3.—All proposed aviation legislation now before it for the army was rejected today by the house military committee.

In place of the rejected proposals, the committee voted to draft a bill of its own for retention of the present status of the air service with a few changes and a five year building program.

This action followed shortly after submission by the war department of a five year program, but the vote did not cover the department's recommendation.

The committee defeated the department of national defense proposal by a vote of 11 to 10. The principal of unified air service was turned down by a vote of 16 to 5. The separate air corps proposed by Major General Mason M. Patrick, army air chief, was rejected 16 to 6.

The Morrow bill carrying out the recommendations of the president's board was rejected, 11 to 10.

Davis submitted the following as the considered plan of the general staff and chief of air service entailing additional appropriations of about \$33,000,000 annually:

- 2,200 planes, compared with about 700 effective planes now on hand.
 - 1,650 officers, an increase of 400.
 - 15,000 enlisted men, an increase of 6,000.
 - 550 reserve officers on active duty for periods ranging from six months to two years.
- "The increases in air service personnel are also to increases in the regular army strength," according to Davis.
- "Of the \$30,000,000 a year increase, approximately \$7,500,000 a year would be for planes, and the remainder for personnel and incidental additional expense," the secretary explained.

KING ALFONSO TO TRAVEL BY STEAMER, NOT PLANE

Madrid, March 3.—(UP)—If King Alfonso visits South America he will travel by steamer and not by airplane, the United Press was authoritatively informed. The story appearing in the Paris Journal to the effect that Alfonso, Queen Victoria, Premier Primo de Rivera and several ministers, would cross the Atlantic by air, in 10 hydroplanes, led by Commander Ramon Franco, has no foundation in fact.

GUBERNATORIAL CALL BECKONS TO DAVIS

Washington, March 3.—(UP)—Secretary of Labor James J. Davis wants to remain in the cabinet until the close of the Coolidge administration, he revealed today, but the call to make the Pennsylvania governorship race has enough backing to cause him to weigh the two jobs from the standpoint of best serving his constituency.

ONE MAN KILLED IN HOTEL FIRE

Pontiac, Mich., March 3.—(UP)—An unidentified man was burned to death, and one other man was severely injured in a fire of undetermined origin which early today destroyed the Green Beach hotel, a two story frame structure here. The injured man is Angeli Cuctoio.

TICKERS ARE SWAMPED IN EARLY TRADING

MARKET DECIDEDLY IRREGULAR, BROKERS WATCH RAILWAY STOCKS

FLOOD OF OVERNIGHT SELLING ORDERS IS IN EVIDENCE

New York, March 3.—(UP)—Trading on the stock exchange opened today with such volume that tickers were swamped in initial transactions.

A flood of overnight selling orders, together with evidences of strong buying support resulted in the trading of 325,000 shares in the first 15 minutes. At this rate the total volume of the day would be 6,504,000 shares or twice as much as the record day's business.

The market was decidedly irregular.

Brokers anxiously watching the railroad stocks saw varying tendencies.

Chesapeake & Ohio, a leading unit in the proposed Van Swearingen merger, which was frowned on yesterday by the Interstate Commerce Commission, was up 2 3-4 points at 116. Other railroad shares, however, suffered material drops. The Chesapeake & Ohio opposed the merger.

Erie railroad, for instance, was off 6 3-4 points to 28. Wabash lost 4 1-4 points to 37. Norfolk & Western was off more than a point and Chicago, Great Western, Pennsylvania and Frisco dropped fractionally. Hudson Motors, which were subjected to the attack of the bears in yesterday's startling session, was off 2 at 111. Chrysler and General Motors, on the other hand, advanced fractionally.

In the first half hour trading totaled 56,400 shares.

The floor of the exchange was crowded and brokers' offices were thronged. Most of those speculators who had been investing on weak margins have already been wiped out in the market, but there were other fresh investors willing to take their places.

The bond market was heavy. Leading rails dropped from 1-4 to 1-2 point. Erie 4 1/2 were off almost a point at 74 3-4.

While the curb market was steadier than during the closing hours of yesterday, electric investors dropped two more points to 43 and other public utilities were weak. The curb market ruled that no transactions in the New Nickel Plate issues in contemplation of the merger would be permitted until further notice.

Trading in the first hour totalled 969,699 shares as compared with 566,100 shares sold yesterday. Bond sales aggregated \$5,733,000 which compares with Tuesday's first hour figure of \$1,674,000.

The stock ticker was running 20 minutes late at 11:30. Prices on the floor at that hour showed little change in leading industrials. The highest price reached for Chesapeake & Ohio was 122 3-8, up 9 1-8.

New York, March 2.—(UP)—Many followers of financial affairs believed today would furnish the test to determine just how far the present decline on the New York stock market is going. Brokers' clerks worked far into last night, straightening out the books as a result of yesterday's wild closing when records for sales, which stood for years, were broken in the final hour.

Effect of the Interstate Commerce Commission's adverse decision on the Nickel Plate merger was expected to show its influence on today's market, coupled with apparent general downward trend.

One report that Jesse Livermore and W. C. Durant were engaged in major operations. Both of these operators recently said more or less emphatically they were out of the market, which caused many in Wall Street to consider they were undoubtedly in it. Durant is known to have been active since last fall, when he was engaged in extensive trading during a bull market which sent stocks up to new high levels.

Just where yesterday's market left many traders was indefinite today but it was known that brokers

MRS. McKNIGHT IN ADDRESS TO 200

Minneapolis Clubwoman Tells of Work of League of Women's Voters in Minnesota

BANQUET AT M. E. CHURCH

Young People's Department Serves Fine Menu; Mrs. W. C. Cobb is Toastmistress

Mrs. Sumner T. McKnight last night addresses 200 interested men and women on the subject of the League of Women's Voters at the banquet of the local league served in the First Methodist church. Mrs. McKnight is an ardent worker in the league in Minneapolis.

The dinner was finely served by the young people's department of the Methodist church, and was greatly enjoyed by all attending. From the time the banqueters entered the ante-room of the banquet hall, where two members of the department acted as checkroom attendants, to the end of the evening's entertainment, all bespoke an efficient and careful control and organization. Much credit is due to Lawrence Ericsson, president of the department, and his staff of fine workers.

Mrs. W. C. Cobb, chairman of the local league, acted as toastmistress of the occasion, and in a few well chosen words introduced the speaker of the evening.

The work of the League of Women's Voters, as described by Mrs. McKnight, is carried out through the workings of three main committees, those of efficiency in government, social welfare, and international cooperation to prevent war.

Under the head of the first committee, said the speaker, is done the work of educating the new voter into her duties of citizenship. The league in its work of this committee aims to be an organization of education rather than information or propaganda.

Mrs. McKnight related the efforts of the clubwomen in the three major projects to date. These included the drive to get out a 75 per cent vote during the last presidential election, the attempt to secure the enactment of the Child Labor Amendment to the Federal constitution, and the work for United States entry into the World Court.

With an enormous amount of individual work, including house to house canvassing in the cities, the league workers succeeded in getting out a much larger percentage of the vote in the cities, but the net total vote, including the rural vote, was but 51 per cent of the total eligible vote, as compared with 49 per cent in the previous campaign, 1920. And yet, said Mrs. McKnight, the women considered that the educational values received by the effort were far greater than 2 per cent difference in the vote indicates.

The league did not succeed in their attempt to secure the enactment of the Child Labor amendment, but this too proved an educational feature. In the work for the World Court, the women of this state secured two miles of signatures to petitions for United States entry, doubling their aim of one mile of signatures.

Concluding, Mrs. McKnight pictured the wonders of the work as seen from the heights of great effort, and ventured the prediction that the league will go on in its work of education and working toward the betterment of citizenship.

Before Mrs. McKnight's address, the entire number present joined in singing of a number of community songs, led by Alfred Dillan, with Miss Effie Drexler accompanying on the piano. After the banquet, a number of women attending made application for membership in the league.

ALL OUT OF SORTS?

So Was This Brainerd Woman Who Tells Her Experience

All too often women accept their pains and aches as natural to their sex. They fail to realize that weak kidneys are often to blame for that backache, those headaches, dizzy spells and that tired, depressed feeling. Thousands have found new health and strength by helping the weakened kidneys with Doan's Pills—a stimulant diuretic. This Brainerd case is one of many:

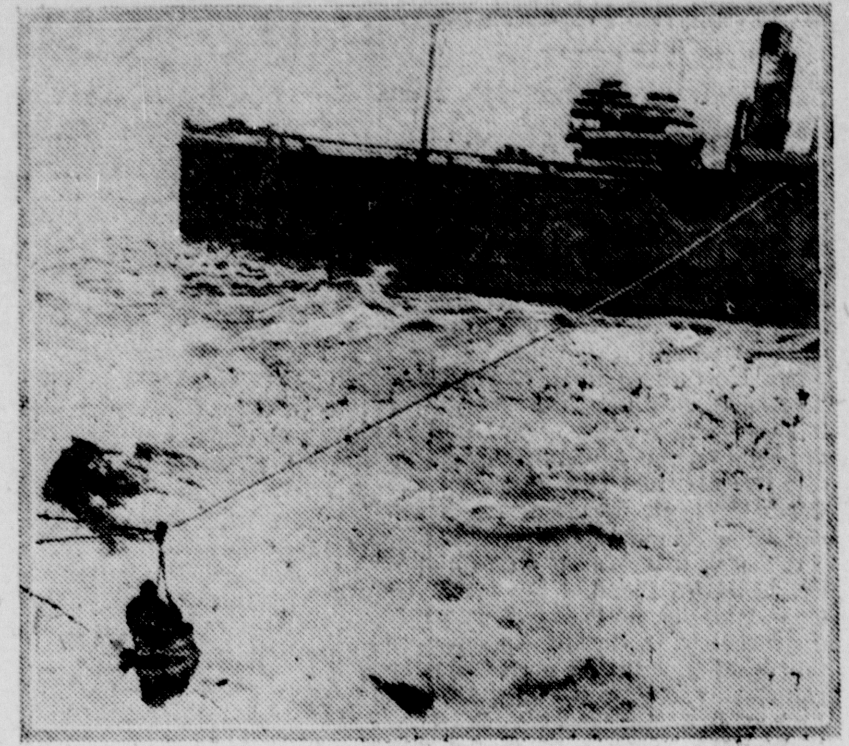

Mrs. A. C. Hansen, 911 Kingwood St., says: "My back was sore and stiff. Stopping irritated my back and kidneys. I had a constant dull ache through the small of my back that just laid me up. I had such dizzy spells I didn't know what I was doing. I used Doan's Pills and they rid me of the misery."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Hansen had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Breeches Buoy Saves All Hands When Italian Steamer Liberta Goes on Rocks at Salcombe

This photograph, just received from London, shows the wreck of the Liberta, an Italian steamer which went on the rocks at Salcombe. All on board were saved by the breeches buoy. Lady Waring, wife of the former Liberal Member of Parliament, was near, acted as interpreter and housed 27 of the ship-wrecked men. The ship was bound from Spezzia to Rotterdam.

"SOME WILD NOTIONS I HAVE KNOWN"

By the REV. ROY L. SMITH, D. D.
Pastor Simpson M. E. Church, Minneapolis

"HE LAUGHS BEST WHO LAUGHS LAST"

He often laughs best who laughs first.

It is usually the first laughter who starts all the rest of us laughing, and any man who can make two grins grow where one grin grew before is a public benefactor.

Many a quarrel could be averted if one or the other party would begin laughing.

If someone could only get the Fundamentalists and Modernists to laughing with each other it would become exceedingly difficult to start any more heresy trials.

He is a wise man, indeed, who knows well when and where to start a gale of laughter.

"That man has no sense of humor," said my friend.

"Why, I always thought he could see a joke," I exclaimed in surprise.

"Yes, he can," was the answer. "But he is never able to laugh when there isn't any joke."

He who laughs has taken a temporary vacation from trouble. He has given his mind an airing. He has sharpened his wits, quickened his mind and refreshed his body.

He who looks for opportunities to laugh finds them. He who looks for chances to weep works his lachrymal glands overtime. Jesus said, "Seek and ye shall find." It must be true, therefore, that what we are finding the most of betrays what we are looking for.

At least half of life depends upon the liver.

Laugh, and the world will follow your example and pay you well for starting it. He laughs best who laughs first when it is needed.

ASKS FEWER AND BETTER SCHOOLS IN STATE

Minneapolis, March 3.—(UP)—Fewer and better schools and fewer and better teachers was the slogan for rural Minnesota suggested by J. M. McConnell, state superintendent of schools, at this afternoon's session of the Minnesota School Board association meeting here.

"JUNIOR BAWL" AROUSES STORM OF CRITICISM

Minneapolis, March 3.—(UP)—Editors of the "Junior Bawl," a publication distributed at the junior ball and other university social events last week, may be suspended by the all-university council meeting late today. Demand for the suspension was made by the board of governors of the Minnesota union in a resolution characterizing the publication as "slandering to individuals and discreditable to the university."

Pi Delta Epsilon, honorary journalistic fraternity, is said to have been responsible for the publication.

NORTH LONG LAKE NEWS

March's roar will change to a bleat!

You ought to have been up at the school house Friday night! Everybody else was and the school rings yet with their laughter! Miss Almira Pease exhibited her Family Album, to the delight of the audience, for it contained many interesting life-like portraits.

Those who posed for the various portraits are as follows:

"Mother"—Mrs. Elizabeth Ackerson.

"Father"—William Johnston.

"Me as a little girl"—Edith Johnson.

"Eben, my husband"—Iner Lang.

"Me as a bride and the groom"—Mary Hughey and Iner Lang.

"The twins"—Fred Sandgren and Oscar Wahlstrom.

"The parson"—Clarence Barr.

"The parson's wife"—Mrs. Clarence Barr.

"The parson's son"—Perry Paulson.

"Sister Jane"—Mrs. R. B. Thompson.

"Sister Jane's husband, Deacon Jabez Higgs"—Walter Lang.

"Sophia, Sister J's oldest daughter"—Mrs. Hilding Larson.

"Ann Eliza, Sister J's youngest daughter"—Miss Hazel Paulson.

"The village beauty"—Miss Bernice Ackerson.

"Grandpa Hobbs"—John Sandgren.

The program committee composed of Mrs. Wm. Hansen, Chairman, Miss Ellen Hansen, Miss Anna Sandgren, and Miss Emma Sandgren are to be congratulated for having given the community an enjoyable evening.

Miss Hazel Huntley was unanimously elected chairman of the next program committee.

The Daughters of the Soil will meet at the home of the Misses Agnes and Amanda Olson Saturday afternoon.

The last meeting of the D. O. T. S. was held at R. B. Thompson's. The following officers were elected at this meeting to serve for the next three months:

President—Miss May Lundeen.

Vice President—Miss Margaret Dillan.

Secretary—Miss Mary Hughey.

Treasurer—Miss Hazel Paulson.

Two new members joined the club. They were Miss Amanda Olson and Miss Elizabeth Paulson.

A delicious luncheon was served by the hostesses.

Mr. and Mrs. Edwin Olson and family were callers at Ole Olson's Sunday.

Two sewing clubs, or clothing project units, have been organized in the community.

We had a good time at the Bible class Sunday, but we are sorry some of you missed it. We hope you can come next Sunday. The lesson deals with the beginning of Hebrew history starting with the twelfth chapter of Genesis.

Mrs. C. Johnson who has been spending some time with her daughter, Mrs. Seavert Paulson left Friday for Detroit, Minn.

Mrs. H. Hughey and son Harry were callers at John Gibb's last Sunday.

Miss Mary Tornstrom, principal of the Brainerd high school, was the guest of Mary Hughey over Friday night.

The correspondent has received an interesting letter from J. F. Smart of Fairhope, Alabama, of which she is handing a copy to the editor of the Dispatch. Mr. Smart is the cousin of Mrs. R. B. Thompson of this community and the brother of Wallace Smart of a nearby community. Many people will remember Mr. Smart's long and faithful service as county auditor of Crow Wing county.

The correspondent wishes to gratefully acknowledge the greeting and also to thank Mr. Smart in behalf of the D. O. T. S. for his kind invitation to visit their farmer's club meeting. We shall remember the date and shall be with you in fancy.

A number of farmers attended the profitable lecture on dairying in the town hall Feb. 19. Those who went are enthusiastic about the coming meeting which will be held March 12th. The plan is to make it a time of pleasure as well as profit so families are requested to come and bring their dinners for a winter picnic. This will give more time for the dairy school after dinner. If the cat wants to come, let her come. Mark the date on your calendar now!

CRIES OF BABY

SAVE LIVES OF FIVE PEOPLE

Chicago, March 3.—(UP)—Cries of a baby today saved the lives of five people.

Mrs. C. F. Lockfer, heartbroken because her husband had sued her for divorce, swallowed a quantity of poison and turned on the gas in her bedroom. With her were her 1½ years old baby, three other children and the husband. One of the children was awakened by the cries of the baby. She grabbed the baby, carried it out and awakened the rest of the family. Mrs. Lockfer died.

HOW TO INCREASE DAIRY PROFITS

Cow test methods increase dairy profits, said Dr. C. H. Eckles, who was one of the important speakers at the Minnesota State Dairymen's convention held at Brainerd in January. Dr. Eckles, who is the head of the dairy division of the University of Minnesota, claims that the Minnesota farmer with the average size dairy herd, by adopting cow testing association methods, can increase his annual butterfat production 1,000 pounds above what he is getting now. While the average cow is only producing about 160 pounds of butterfat in a year, the average cow in the testing association turns out 270 pounds of butterfat during the same period.

"Cow testing association cows are not high priced, purebred animals, and their owners are not competing for high records," argues Dr. Eckles. "They are simply farmers keeping cows for a living and trying to produce as much milk and cream as possible at the lowest price. If they are able to get so much more out of their animals than their neighbors, it is simply because they have the figures at hand to show them exactly what they are doing."

"The first lesson one learns from the cow testing association is that if the owner of the average herd of nine or ten cows will adopt the methods of farmers in cow testing association work, he can very likely run up his butterfat production 1,000 pounds in a year, and 1,000 pounds of butterfat in these days is worth working for. Cow testing association records also will show him which of his cows is not producing profitably and should be culled from the herd, if the cows are to keep the farmer instead of the farmer keeping the cows. Furthermore, he will find that the well-fed cow is the economical producer of butterfat and that it is never economy to be keeping a half-fed herd of dairy cows. The fourth important lesson from the cow testing association experience is the great value of alfalfa hay. The most successful dairy farmers in the associations and outside as well depend upon some legume hay for roughage, and a great many of these choose alfalfa."

Another point in cow testing is that a farmer may reduce the size of his herd, cutting out poor animals, and by operating with a few good cows, achieve higher financial results than by keeping many more poorer cows. Cow testing thus lessens the labor of the farmer. He knows to a dot whether a cow is worth her keep or not. He is not working blindly and not doing all his figuring at the end of the month, when his creamery or other check arrives as concrete showing of what he has to show for the month's work.

With cow testing records he can almost figure to a certainty the value of each cow in his herd.

THE POINT OF VIEW

VIEWPOINTS of people differ because of various conditions. You cannot expect a man with liver trouble or a kink in his back to survey things with as rosy glasses as the fellow who is in the flush of health. Our own little grievances and grouches often affect our dealings in matters of importances.

A sound mind in a sound body should be conducive to clear thinking. But in spite of all that, a Pope or a Poe turned out his literary treasures and it just seemed that the body was a mere shell while the mind was triumphant in spite of all the afflictions visited upon a temple of mere flesh.

A man who has achieved a measure of success thinks along different lines than the one who has often met failure. Psychologists have said that the housemaid who is in deadly fear of breaking rare china, invariably breaks the treasures she attempts to carry.

Some travelingman psychologist has maintained that success is met half-way by holding the body erect, the head up and pushing out the third button of the vest. That may succeed in gaining the attention of some buyer, of managing to get to his desk, but again we have seen fat men who pushed out every button of their vests and no big rush of orders resulted.

Viewpoints are based on premises and the best man often fails in case the premise rests upon a false foundation. The opinions of youth are sometimes far fetched and succumb to the experienced views of older people.

In the old days politics so tinged the views of many papers that one had to buy journals advocating the two sides and read both in order to arrive at a reasonable middle ground.

And after all is said and done, the individual reserves the right to form his own opinion and acts accordingly.

THE Preston Times claims there are two sides to every happening and issue, and debt is no exception to the rule. In one direction debt leads to prosperity and plenty but in the opposite direction it arrives at worry and want. It is as well to get into debt of the former kind as it is to get out of debt of the latter kind. In dealing with debt it is necessary to distinguish between mere foolish running into debt and investment; between borrowing to buy non-essentials and borrowing for profit by investing the borrowed money in property, safe securities, household necessities or business. Debts wisely created pay for themselves, but the reckless borrower stands to lose all.

In a letter to THE DISPATCH, Congressman Harold Knutson of our sixth district writes that inoculation for alfalfa may be secured free from the U. S. Department of Agriculture. Applications for same should be addressed to Representative Harold Knutson, Washington, D. C.

MINNESOTA'S road taxes are on the right basis, says the Long Prairie Leader, for the man who uses the roads pays the taxes. Car licenses and gas taxes are all figured on that basis. If you do not own a car, your contribution to our developing state road system is negligible. And it is a wonderful road system, too.

A NEW source of revenue adding to Minnesota's road fund will be the collection of penalties due on delinquent auto licenses. A couple of hundred thousand motorists have been slow in getting their licenses.

THE question of the weaker sex is settled every day, says the Beloit News. What man would be able to survive if he walked down a snowy street in a short skirt and silk hose?

Dog Population Shows

No Tendency to Drop

An attempt to ascertain how many dogs there are in this country has brought out the fact that about 8,500,000 are known to the public authorities. They are the dogs that are taxed or licensed.

All that is known about the untaxed dogs, the strays, the puppies too young to get their owners into trouble if they are not reported or tagged, and the dogs kept where no effort is made to register or tax them, is that their number is great. It must surely be enough to bring the total up to 10,000,000 or more.

That means 1 dog for every 11 human inhabitants, or a fraction over 11. It is somewhat above the proportion of dogs to people in Great Britain. There about 45,000,000 "humans" have nearly 3,000,000 dogs. That is about fifteen persons for every dog.

The English seem to be fonder of dogs than Americans, as a rule, but the fraction of the British people who live on farms is very small. Here it is large, and dogs flourish in the country. Their troubles and perils multiply in cities, the bigger the worse.

Beyond doubt, the proportion of men, women and children to dogs is much larger in the United States than it was when this country was more rural and less urban. The contrast today between West Virginia, say, or Kansas and Massachusetts, in the dogs-to-humans ratio, is very great.

But nowhere is there anything to indicate that a dogless age may be not far ahead. The love of sympathetic, loyal, affectionate pets is too instinctive, too deep, too wide for that. Millions of people are too hungry for devotion, even if it comes from animals in many respects inferior to human beings.

Providence the Scapegoat

Bishop Walter Taylor Sumner said in an after-dinner speech in New Orleans:

"We are too prone to lay the blame on Providence for misfortunes that are really our own fault. Providence, in fact, is getting a bad name."

"An old colored woman was fattening a Christmas turkey, but it got drenched just before Christmas in its leaky hutch, and in a few days pneumonia carried it off. So the old woman's pastor called to console her in her great loss."

"He laid the blame, of course, on Providence."

"Doubtless all is for the best," he said. "Providence, you know. Here we see the hand of Providence."

"The old colored woman gave the table a whack with her fist."

"That'll do," said she. "Providence bejah look out, dass all. Dere's one above won't let dat Providence go too far!"

Don't Live by Pen Alone

In the Paris Almanach for 1926 is a list of writers who do not live by the pen alone. They include a city hall employee, a publisher, a naval officer, a pig dealer, a bank employee, two farmers, a barrister, two engineers, two functionaries, a judge of the Seine court, a doctor and an inspector of forests. The names of several well known writers figure in the list. It appears that Andre Malraux, author of "Les Silences du Colonel Bramble," and an excellent life of Shelley, is a master draper. Jean de Pierrefeu is a manufacturer of perfumes, Pierre Hamp is an engineer and Jean Giraudoux is a diplomat.

Small Treasure Trove

In 1920 a London dealer in antique furniture bought an old writing desk and sent it to his workshop for renovation. In the course of the work the secret drawer, always supposed to lurk there, was discovered, and in it were a number of part sheets of unused English stamps of early date. These had been the owner's private letter stamps, probably kept in this secret place to prevent "borrowing" by other members of the household, but every passing year had added to their value, and they produced a handsome sum at a sale.

Thieves Had Conscience

C. V. Combes was held up and robbed at Winnipeg, Manitoba, while on his way home with \$227, the proceeds of a concert held for the benefit of a Christmas stocking fund for the poor children of Winnipeg. A day later a shabby man called at the campaign headquarters, left a package with the cashier and quickly departed. In the package was found the money and Combes' watch. Also inside was a note saying: "Sorry we did the job. We did not know whose money it was. Spent \$2 before reading."

Power in a Pocket

Sufficient electrical energy to work for many weeks an ordinary wireless receiving set using several valves is contained in a novel accumulator invented by a Russian scientist.

So small that it can be carried easily in the waist-coat pocket, this tiny accumulator has already attracted the attention of experts, who foresee great possibilities in its use for motor cars and cycles.

Has Odd Occupation

"Nomenclature" is a profession of which a woman, Miss Laura Lee Rogers, Elizabeth, N. J., is believed to have a monopoly. For twenty years Miss Rogers has made a business of supplying catchy names for houses, boats and commercial products. Some of the names suggested by her for prepared foods and similar products have been known throughout America.

Patriotic Hymn Not

of American Origin

The British have a prior claim to the tune "America"; we are the ones who borrowed it.

Dr. John Bull, an eminent English composer and organist, is sometimes credited with having written "God Save the King" in about the year 1006, the king he had in mind being James I. A manuscript of the song, attributed to Bull, is still exhibited at the cathedral of Antwerp, where he was organist at the time of his death in 1623.

The hymn did not then, nor for a long time afterward, become the British national anthem; and its authorship is more commonly ascribed to Henry Carey, an Eighteenth century composer, than to Bull. If Bull did write the original, at least Carey recast both words and music about 1740, at the behest of one of the London trade guilds, the Mercers' company, in honor of a birthday of George II.

Whoever first fitted it up as a hymn for the king, it is probable that both the music and the opening words were suggested by a religious composition of medieval origin. Since Carey's time the hymn has been sung in numerous versions and many lands.

The verses we in this country sing to the tune were written by Rev. Samuel F. Smith, a Baptist clergyman and editor of Massachusetts, who loved the air but thought Americans should sing a more American version than "God Save the King." Consequently, about 1832, he wrote "America." Smith, who died in 1895, lived to see his hymn become the most popular of American patriotic songs.

Synthetic Gold

The first sample of synthetic gold that has reached this country is to be on exhibit in the collection of elements at the American Museum of Natural History in New York. Dr. George F. Kunz, noted gem expert, who has the difficult task of gathering together samples of as many of the 92 elements as can be obtained or exhibited, says that the sample of what is said to be synthetic gold is a tiny speck. It is a product from the laboratory of Prof. Hantaro Nagaoka, of the Tokyo Imperial university, who obtained microscopic quantities of what are reported to be artificial gold from mercury by running a mercury lamp for a long period and employing extremely high voltage. Doctor Kunz has in his collection the first crystals of pure fluoride of hafnium, and metallic hafnium. He has not yet obtained samples of the two new elements, rhenium and masurium.

Human Electric Waves

Professor Skripsky of the Leningrad Electro-Technical Institute, who has already proved that the human body is able to radiate electro-magnetic waves, has succeeded in constructing an apparatus for capturing and measuring these waves, which, according to Professor Skripsky, will enable scientists to give "electrical characteristics" to every individual.

"Electro-magnetic waves are peculiar to every human being, and a change in them depends on the state of health and the frame of mind," says Professor Skripsky. Details of his invention are as yet kept a great secret.

Leningrad scientists describe Professor Skripsky's invention as "the great service in the domain of biology and physiology."

Way to Treat Them

"The way to treat cubism and dadaism and super-realism and all the other catch-penny fads is to laugh at them," said Pene du Bois, the art critic, at a dinner in New York.

"A super-realistic painter was giving an exhibition. He buttonholed a well-dressed chap—a good prospect, as they say in the business world—and led him up to a picture and began:

"This will show you, old man, the thing I'm after. We super-realists, you see, strive for the purification of the superfluous, we paint esoterically and not exotically, portraying nothing but the aura or inner urge. Do you follow me?"

"Follow you?" said the prospect. "Gosh, I'm ahead of you. I came out of the bug-house last Monday."

Latest Passenger Plane

To be used in the cross-channel service between France and England, a single 650-horse power engine aircraft, to seat 14 passengers, has been built in a British aircraft factory. It has a large, roomy cabin with wicker armchairs for the passengers, who will have a constant supply of fresh air by means of special ventilation. Emergency exits are provided in the room should it be necessary for the passengers to emerge in case of landing on the sea, in which case the wheels, axis and undercarriage struts can be dropped by means of a lever in the pilot's cockpit. The body of the machine is watertight and buoyant and would float for several hours.

Ain't or Isn't

Billy, three-year-old son of Mr. and Mrs. Harry McClain, Shelbyville, has a fondness for William Herschell's poem, "Ain't God Good to Indiana?" but there was one question concerning it that had to be settled.

A few days ago Billy approached his mother, a troubled expression revealing that something difficult was parading through his juvenile mind.

"Mother," he said, "there's something I don't understand. You tell me to say 'ain't' instead of 'ain't,' yet you don't care when I say, 'Ain't God Good to Indiana?'"

And mother isn't—or ain't—through explaining yet.—Indianapolis News.

THINKS GOOD TIMES

WILL BE PERMANENT

Student of Economics Has No Fear of Future.

The American standard of living gives folks in the United States more of the joys of life than are bestowed in any other nation in the world. The big question is: What is America doing about making this a permanent state of affairs?

Are hard times gone forever? The big story is in the answer, for it shows the practical way America is going about making it perfectly safe for her to be as happy as she wants without worrying too much about the future.

It makes it look as if old-fashioned national hard times of the more violent kind have been permanently fired; that is, the business nightmares that used to grip the entire country periodically during the last century. Factories would be shut down by thousands. Armies of unemployed would be wandering in all directions. Uncertainty hung a pall of fear over the country from coast to coast. And then often things were made all the more terrifying by a Presidential election in which the party in power was turned out of office, and droves of political job holders with it, increasing gloom and unemployment.

There is reason to hope that all these are things of the past. The nation is producing more than it consumes and thriftily saving the surplus.

It has equipped itself out of these savings with vast mechanical enterprises enabling the individual worker so to multiply his skill and strength as to produce goods in such ample quantities that there is an abundant share for everyone.

It is economic-minded enough to put into effect great nation-wide plans to produce with the maximum efficiency and the minimum waste.

It is perfecting its financial machinery to prevent currency and credit panics.

Its people have established a more equitable distribution of wealth under the capitalist system by widespread participation in the benefits of ownership of its corporations.

Its people in these many ways are consistently providing out of the abundance of today against the needs of the future.

It is because of all these things that the United States can afford to indulge itself in more joys than any nation in the world today—and to feel sure that it is perfectly safe for it to do so.—John Oakwood in Forbes Magazine.

WOMAN IN CUSTODY TO BE QUESTIONED

SUPPOSED MAE REYNOLDS IS WANTED IN MINNEAPOLIS TAKEN AT LA CROSSE

BELIEVED SHE MAY HAVE SOME KNOWLEDGE OF BIRKELAND LAND DEATH

LaCrosse, Wis., March 3.—(UP)—A woman believed to be the Mae Reynolds, wanted in Minneapolis in connection with the mysterious death of Rev. Kaute B. Birkeland, whose body was found in a deserted apartment there in December, was held by police here today.

Authorities said she was retained as a suspect for the Hennepin county sheriff. The woman retained counsel and denied any knowledge of the Birkeland death.

A murder theory was investigated with the finding of Birkeland's body. He had been successful in business after having incurred bitter enemies. A coroner's jury returned a verdict of death from unknown causes.

The woman gave her name to the authorities as Mrs. Mayne Hodge. She said she would fight extradition from Wisconsin and persistently denied knowledge of Birkeland or of operating a beauty parlor at the apartment where he was found.

John P. Hoy, detective, back here to question Mrs. Hodge or Reynolds, said he was convinced now as immediately after the death was discovered that Birkeland was murdered. He believed a soluble drug was used to keep the financial captive in the apartment and that an overdose caused his death.

Minneapolis, March 3.—A warrant charging murder has been sworn out for Mrs. Mae Reynolds, held in LaCrosse, Wis., for Minnesota authorities, it was learned here today.

The warrant was issued on request of Alve Birkeland, son of K. B. Birkeland, supposed murder victim, after four persons who lived in the apartment building where Mrs. Reynolds had a beauty parlor identified the woman held in LaCrosse.

John P. Hoy, head of the Hoy Detective Agency, located Mrs. Reynolds, secured her arrest, immediately took steps to identify her and returned last night to get a warrant.

Extradition is sought today.

INCOME TAX RETURNS FILED BY MARCH 15

Minneapolis, March 3.—(UP)—Income tax returns must be filed by March 15, the regular date, despite the time extension granted by the treasury department, according to L. M. Willcutts, collector of internal revenue for Minnesota. Time for filing final returns was extended to May 15, because of the late date upon which the new tax scales were adopted to allow large concerns to conduct audits, he explained. The extension was not made general for all taxpayers.

ASKS FOR PROBE OF POSSIBLE LEAK IN I. C. C. ORDER

had closed numbers of margin accounts, selling the stock involved at the market when the customers could not cover additional margins. This had left many customers owing brokers substantial sums, but the brokers thought much of it would be collectable.

Financial experts considered the present break as comparable to the famous declines of 1907, the Northern Pacific corner of 1901, and that of November 12, 1919, when the post war inflation market met its end, only in the matter of magnitude. These breaks were characterized by shortage of money, call rates having gone as high as 100 per cent in the 1907 collapse and to 30 per cent in 1919. In the present situation they maintained there was no money shortage and the financial situation was not involved.

MOST STUPENDOUS TRADING IN HISTORY

New York, March 3.—The stock exchange today was the scene of the most stupendous volume of trading in the history of Wall Street, prices of virtually every stock sagging as demoralized speculators threw in their holdings regardless of price.

The total sales reached 3,837,700 shares as compared with the previous record of 3,427,100 established on November 10, 1925.

The tumultuous volume of trading was in evidence from the opening gong.

Despite the adverse government decision on the proposed Van Swearingen merger prices held steady throughout the morning. Only in those railroad stocks most affected by the decision did the bearish tendency of the last fortnight continue as buying interests came to the rescue of other stocks.

But in the afternoon the market was left to itself and the bears had a field day.

They dumped stocks galore on the market and the exchange was feverish at the flood of selling orders.

Voices were strained, collars and ties were awry and tempers were frayed as brokers and their clerks shouted orders amid the madhouse into which the exchange resolved itself.

All Europe is putting its business in order for the battle royal, expected next week at Geneva, when the league meets with the admission of nations other than Germany to permanent council membership on its agenda. HEAVY FIGHTING IN CIVIL WAR IS RAGING IN CHINA

REPORTED TODAY IN DISPATCH TO THE LONDON DAILY MAIL

ARMORED CARS AND DYNAMITE USED BY CONTENTING GENERALS

London, March 3.—(UP)—The heaviest fighting in the history of China's 15 year old civil war is reported today in a dispatch to The Daily Mail from Peking. If the battle is decisive the civil war may be ended.

Marshal Chang Tso Lin, military governor of Manchuria, and General Feng Yu Hsiang, the Christian general, are fighting for the control of Peking. Both armies have suffered heavy casualties.

Armored cars and dynamite are being used freely. Many bridges have been destroyed and business is disorganized in the fighting area.

General Li Chang Lin is attempting to advance toward Tien Tsin, as Chang moves toward Peking. From Honan Wu Pei Fu is marching to join Li in an effort to consummate an alliance with Chang, Li and Wu against Feng.

BRUTAL DOUBLE KILLING NEAR STEUBENVILLE, O.

Steubenville, O., March 3.—(UP)—One of the most brutal double killings in years was brought to light here today when the body of Robert Herron, wealthy bachelor farmer, was found in a barn, his head split open and his sister, Miss Nettie Herron, 56, was found dead at the end of a rope in the dining room of the Herron farm house.

After examining the bodies, the county coroner declared Miss Herron had been strangled to death and the body then hanged to a hook to make it appear as though the woman committed suicide. Herron was slain with a mattock. The blood stained instrument was found in a corner of the room.

The First Message

"MR. WATSON, come here; I want you!" exclaimed Alexander Graham Bell on March 10, 1876, during an afternoon of experimentation, and over a wire connecting two rooms, the young assistant heard the words, the first spoken sentence to be so transmitted.

Fifty years have passed. Today there are 17,000,000 telephones in the United States, giving voice to human need, as Bell's crude transmitter did then. Fire breaks out in the night; law-breakers invade a home; sickness strikes at a family circle. "Come here. I want you," is the summons, and the telephone speeds it on its way. Business of importance demands the decision of one who is on the far side of the continent. "Come here, I want you," is the summons again, and as if by magic, a personality is projected through space, questions are asked, answers given, problems solved—by telephone.

Every telephone call is an echo of the first message. For whether it is the physical presence or the listening ear that is desired, the impulse that lifts the telephone receiver is, "I want you."

**\$4,000 TO \$5,000 THAT ATH-
LETICS DEFEAT WASHING-
TON SENATORS**

By HENRY L. FARRELL
(United Press Staff Correspondent)

New York, March 3.—Sentiment favoring the chances of the New York Giants and the Philadelphia Athletics in the major league pennant races this year is indicated in the early betting odds quoted by commission firms in the financial district. One bet of \$3,000 against \$5,000 has been offered that the Giants will beat out the Pittsburgh Pirates for the National league championship and another of \$4,000 against \$5,000 that the Athletics will succeed the Washington Senators as the American league champions.

Great amounts of money are not in sight, compared to other years, because the championship races are looked upon as being tighter than usual and speculators want to see what happens to several clubs in their training camps.

Several firms said they had been asked to look for the very best long end odds that the world series would not be played in New York, that the series would not be played in St. Louis, that the Washington Senators would not finish in the second divi-

sion, that the Boston Braves would not beat out the Cincinnati Reds and that the Chicago White Sox would not be a first division club.

Most all of the critics are picking the Washington Senators for a fall in the American League, believing that Bucky Harris cannot hope to have the same luck again with a veteran pitching staff.

The chances of the Yankees depend on Babe Ruth, who is reported to be in the best of condition, and on two rookies, who are to be tried in the infield, Tony Lazzeri, the home run king of the minor leagues, and Mark Koenig, from the American association.

Hopes for the Cincinnati Reds in the National league race have decreased in the last week with the threat of Wally Pipp to retire if he does not get half of his purchase price from the Yankees and a rumor that Adolfo Luque, one of the pitching aces, is in bad shape as a result of a recent operation.

DEMPSEY WANTS \$750,000 TO FIGHT WILLS

By HENRY L. FARRELL
(United Press Sports Editor)

New York, March 3.—Jack Dempsey puts a fancy price on his services when he asks \$100,000 down and a guarantee of \$650,000 more for defending his heavyweight championship against Harry Wills.

You will hear repeated the old protests that such a sum is such and such times what the president of the United States gets for a year in one of the most responsible positions in the world.

Perhaps that rate of pay is out of all proportion with the time involved but you can't shoot a fellow for trying and it can't be denied that Dempsey is entitled to a fair percentage of what his appearance would draw at the gate.

Tex Rickard made an estimate recently that the Dempsey-Wills match, if it could be staged under favorable conditions without interference might draw as much as \$2,000,000.

Some critics claim that it would be a bad fight and the public would not be interested but that isn't logical. The public always will be interested in a heavyweight championship fight and the attendance would be restricted only by the number of seats that would be available.

Mlle. Suzanne Lenglen, the French tennis queen, announced recently that she had been offered \$20,000 by an American promoter to engage in a professional match in this country.

In the largest stadium in this country, at Forest Hills, Mlle. Lenglen could not draw more than \$75,000 at \$5 a head and if she is worth \$20,000 of any promoter's money, Dempsey is worth just what he is asking.

It would sound much better, however, if Dempsey wouldn't mention flat guarantees. If he talked about percentages it would make him much more popular and would amount to the same thing in the long run.

Rickard said not long ago that he was through offering flat guarantees to any fighters and that in the future boxers working for him would have to abide by the section of the rules requiring that percentages only can be paid in New York.

Dempsey's demands, to those who think them exorbitant, will be taken as an indication that he is hiding from Wills behind the U. S. mint but the facts do not bear out any such belief.

The champion knows that a fight with the negro challenger would not be arranged without a whole lot of controversy and trouble and he, being a business man, does not want to bind himself to any agreement that might find him holding the bag at the end of another year.

No one should expect Dempsey to take the big risk for the benefit of a promoter and if a shrewd judge like Rickard estimates that Dempsey could draw \$2,000,000 for fighting Wills, he is entitled to just as much as he has demanded.

GIVE me a pipe and Prince Albert. I want to be happy, you bet. I know what I want when I want it . . . a smoke without grief or regret. Funny how a fellow wants to break into poetry when he's happy as a lark.

Well, that's ME all over. I've discovered the one tobacco that makes a jimmy-pipe a pal for life. Good old P. A., the chummiest tobacco that ever nestled in the bowl of a briar. Cool and sweet and fragrant, just never was a tobacco like P. A.

I start in right after breakfast and hit it up till I sign off for the night. It never bites my tongue or parches my throat. They tell me the Prince Albert process cuts out bite and parch. Whatever it is, I can testify they're out!

Here's a hot tip on a cool smoke—get yourself a tidy red tin of Prince Albert now. Tuck a neat wad of it into your old jimmy-pipe and make fire with a match. That's the formula . . . simple as falling out of bed. That's why I'm pipe-happy, Brother.

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

PRINCE ALBERT

—no other tobacco is like it!

SUPT. W. C. COBB IS RE-ELECTED

Board of Education Re-engages Superintendent for Another Year, to July 31, 1927

EASTER VACATION DECIDED

Board Has Surplus From Veterans' Bureau Work, Gets Complete Clearance on Property

Superintendent of Schools W. C. Cobb was re-elected to that position for another year at the regular meeting of the board of education held Monday evening. The period of the new year is from August 1, 1926 to July 31, 1927.

The board in voting on the matter of Mr. Cobb's salary required eight ballots before a majority was gained. He was re-engaged at the same salary as at present.

The matter of the regular Easter vacation of the city schools was determined at this meeting. The schools will close on Friday, March 26, and will re-open Monday, April 5.

The members of the board heard the final check of the Veterans' Bureau matters. The secretary of the board submitted a communication from C. D. Hibbard, regional manager for the bureau, giving the local board a complete clearance of property loaned by the government in connection with this work.

There remains a sum of money on hand as a surplus after the Veterans' Bureau work, and the board is as yet undetermined as to the use to put this money. Until further disposition is made of it, the board voted to purchase one certificate of deposit for \$1,000, two for \$200 each, and leave the remainder, approximately \$154 in the Bureau fund for emergencies.

The Veterans' Bureau work was discontinued here in July, 1925. A wagon belonging to the board, used in connection with the Veterans' Bureau work, is still on hand, and the board authorized Mr. Hagberg to dispose of the wagon to the best advantage.

The superintendent submitted his monthly report, which was received and ordered placed on file. In the report, mention was made of the employment of Harold Gridley, from Macalester college, as instructor in the high school in the place of R. C. Johnson.

The book room report for the month of February was received and ordered placed on file.

The committee on health and sanitation submitted a report on the work of the city and school nurse for the month of February. The report showed a number of interesting items. Miss Turner, of the state department for the blind, will conduct a sight saving class, and a survey of pupils will be made to determine the number of students needing this attention.

The last T. B. clinic was exceptionally large, 16 cases being examined. Of these, 3 were found to be suspects, and one positive. A dental clinic will be held throughout the schools in March. Miss Eula Michael, the nurse, also reported having assisted Miss Oerting in speech defect classes on Saturday afternoons. The report of the committee was accepted and ordered placed on file.

Treasurer M. E. Morrison submitted his quarterly report for the quarter ending January 31, for the general account and the sinking fund account. The reports were read and referred to the finance committee for checking.

The board authorized the ordering of five copies of the American School Board Journal, one copy to be addressed to the senior board member from each ward.

The city engineer's report on the completion of the survey of block 82, one of the proposed sites for a new high school, was received. This survey of all proposed sites is being made to assist Mr. Ittner, school architect of St. Louis, in making his recommendations.

All members of the board were present except Geo. D. LaBar and S. A. Stanley. In the absence of President LaBar, Vice President K. S. Bredenberg occupied the chair.

WILLING WORKERS' CLUB

Held Second Meeting Monday, Electing Officers And Studied Missionary Book

The Willing Workers' club held its second meeting on Monday, March 1. The club was organized at the home of Miss Lorraine Morrison on Feb. 8, with the following officers being elected:

President—Mae McQuillin.
Vice President—Dorothy Hodge.
Secretary—Alyce Little.
Treasurer—Margaret Moilanen.

The club members are girls of about 12 years of age, members of the Presbyterian Sunday school. They decided to make missionary books, as the club is a missionary organization. They also decided upon dues, and other items of interest, including class song and motto.

Mrs. J. A. McKay teaches a book of adventure in missions. Mrs. A. G. Patterson is the class advisor. The club decided to have its money go to the Presbyterian hospital at San Juan, Porto Rico, for the support of a bed in the children's ward.

R. R. GOULD SPEAKS AT ROTARY CLUB

President of Chamber of Commerce Declares it an Organization for Community Good

CHAIN STORES DISCUSSED

R. E. Wyett, of J. C. Penney Store, Tells of Policy of Service by Chain Store

The Rotary club at its meeting Tuesday heard two very interesting talks by leaders of business and civic institutions. R. R. Gould, president of the Brainerd Chamber of Commerce, and R. E. Wyett, local manager of the J. C. Penney Co., delivered short talks on the work of their organizations.

In his talk on the Chamber, President Gould emphasized the fact that that organization is a civic body for the community welfare, where the things that interest the community may be discussed, and where citizens may have a chance to cooperate for civic betterment.

He stated that the progress of the city will depend on the extent to which merchants cooperate, in a spirit that will cause a merchant to wish to have trade go to his competitor rather than see it go out of town.

R. E. Wyett spoke of the beginnings of the J. C. Penney Co., and how this store is built around the idea of extending service to the community. Employing local help, its managers and other workers living in the community and often owning property, the chain store aims to put into the community the business application of the "Golden Rule."

Vice President Wm. Haydon presided at the meeting in the absence of John P. Woodhead, who has left the club through his leaving the automobile business in this city. Walter Cobban, who has been away from the club most of the winter, was back from his southern visit. He had visited a number of Rotary clubs while away.

Mons. Mahlum reported that former Governor Eddie Flynn of the ninth district, will speak at the St. Cloud Rotary club on Wednesday, March 10, and urged Brainerd Rotarians to attend this meeting. His subject will be "Business Methods."

Visitors at the meeting yesterday were Clyde Miller, of Staples; Thomas Larkin, mechanical superintendent of the N. P., and R. E. Wyett.

Past Matron's Club Meets

Members of the Past Matron's club and their husbands and the patrons of the Eastern Star and their ladies will be entertained by a committee on Friday evening of this week in the Masonic parlors.

Birthday Surprise Party

Friends of Mr. and Mrs. Schroeder of South Sixth street, gave them a pleasant surprise at their home last Sunday evening, the occasion being Mr. Schroeder's birthday.

The evening was spent in playing cards, after which a delicious luncheon was served. The guests departed late in the evening, wishing Mr. Schroeder many happy returns of the day.

JEROME KELLEHER COMMITTS SUICIDE

Former Brainerd Man Now of Superior Shot Himself With Revolver

WAS 63 YEARS OF AGE

In Early Days of Brainerd He Conducted Globe Hotel

Jerome Kelleher, well known to pioneers of Brainerd and who at one time conducted the Globe hotel at the corner of South Fifth and Front streets, committed suicide in Superior.

The Duluth Herald states: Jerome Kelleher, proprietor of the Tower hotel at 625 Tower avenue, who Sunday afternoon shot himself in the head with a .32 caliber revolver while in a rooming house at 1813 Winter street, died Tuesday morning in a hospital at 7 o'clock.

Mr. Kelleher was 63 years of age and had been a resident of Superior for fifteen years, coming here originally from Deer River, Minn. He was born in Waseca, Minn., Aug. 12, 1863. Survivors are his wife, Mrs. Mary Kelleher of Superior; two daughters, Miss Morrell Kelleher of Superior and Mrs. Ethel Halford of Seattle, and one son, Jerome Kelleher of Superior.

The body is at the Le Sage funeral chapel pending the arrival of Mrs. Halford. Funeral arrangements will be made later.

An earlier edition of the Duluth News Tribune stated:

Kelleher, according to police, registered at a rooming house at 1813 Winter st. shortly before 4 o'clock Sunday afternoon. Soon after he had gone to his room, a muffled report was heard by the occupants of the house, but it was thought to be the backfire of an automobile.

About 8:30 p. m. sounds of gasps and labored breathing were heard from the room. The occupants next door called Miss Agnes Pavey, proprietor of the place, who entered the room and found Kelleher on the floor with his head in a pool of blood and a revolver clutched in one hand.

Dr. A. L. Weisgerber was immediately summoned and the police notified.

The bullet, from a .32 caliber revolver, entered his head in front of the right ear and is believed to be lodged in the brain.

No motive could be learned for Kelleher's act. His wife and daughter were notified after Kelleher had been taken to the hospital.

Belle Forbes Cutter to Sing Under Musical Club Auspices at New Park Theatre Sunday

Belle Forbes Cutter will be the last of the Sunday soloists for the Brainerd Musical club. She will sing at the New Park theatre on Sunday, March 7, at 4 p. m.

The Chicago Herald-Examiner paid her this compliment: "Belle Forbes Cutter was the soloist with the Edison Symphony orchestra. Two songs by Speaks and 'The Last Rose of Summer' were her contributions to the program which were sung with lovely tone and art."

The Music News of Chicago says: "Belle Forbes Cutter was the soloist Thursday night. She is of the silver filigree voice, the pure, finely woven, cobweb-like tone which delights the connoisseur and satisfies the soul. Her 'Last Rose of Summer' won applause before she started to sing, and an ovation as the last notes died away."

SECOND CONTEST FOR OLD FIDDLERS

Will be Held at Lyceum Tonight Between Shows, Playing Old Time Favorites

TWO FIDDLERS ENTERED

Obadiah Rice, of Brittmount, And George Fitzsimmons, of Verdale, to Compete

The second lap of the race for the fiddling championship of this vicinity will be held tonight at the Lyceum theatre, between shows, with two fiddlers entered for the evening.

Word has been received from Obadiah Rice, of Brittmount, that he will be unable to attend the contest tonight, and Manager W. R. Hiller announces that P. J. Casey, of 710 North 8th street, will play in his place.

Mr. Casey, who as the "N. P. Wizard" will bring a number of his railway friends along, will play as his numbers "Little Brown Jug," "Missourica Polka," and "The School-mate Schottische."

George Fitzsimmons, of Verdale, the "southpaw" fiddler, will be his competitor. Mr. Fitzsimmons handles his fiddle from the off side, and will play "Devil's Dream," "Sailor's Hornpipe," and "Jack Pine Reel."

The winner tonight will enter the finals to be played at the Lyceum theatre a week from Saturday. One more preliminary contest will be played before the finals, this to take place on Thursday night, March 11.

The finals winner will be the Brainerd hope in the contest March 14 with "Old King Tut," Minneapolis champion, who will appear at the New Park theatre in conjunction with the presentation of the "King Cole Review," a Finkelstein & Ruben production carrying 22 people.

Observe Telephone Anniversary
Twenty-six employees of the telephone company in Brainerd will join with hundreds of thousands of other telephone workers in the country in a dignified and concerted observance of the 50th birthday anniversary of the telephone March 10, according to H. D. Hoffman, local manager for the Northwestern Bell Telephone Company here.

On March 10, 1876 the first message was transmitted over the telephone.

On that day, Alexander Graham Bell telephoned from his laboratory on the top floor of an old house at 5 Exeter Place, Boston, to Thomas A. Watson, his assistant, in another room on the same floor, saying, "Mr. Watson, come here; I want you." "And so," said Manager Hoffman, "on the 50th anniversary of that day workers everywhere in this great industry which has grown to such proportions as to make us a true nation of neighbors are going to wear an emblem in the form of a lapel button which bears a picture of a telephone with the figure 50 superimposed and thus personally join in a nation-wide commemoration of the occasion."

Dan Markham, formerly of Brainerd, who is a linotype operator at Evansville and is also attending school there, was a member of the debating team on the world court question. The Evansville team, supporting the affirmative, won a unanimous decision from the Clinton team.

LEGION EVENT

PARADE WILL START FROM Y. M.
C. A. SATURDAY
AFTERNOON

The prize committee for the first annual American Legion dog derby, sponsored by the Carl Sidney Hanson Post No. 255, has been receiving many articles of merchandise for the winners of the dog races Saturday. Andy Gieriet is the chairman of the committee.

The following list of prizes has already been received from the local merchants:

- Boy scout knife—Slipp Hardware Co.
- Flashlight—Alderman-Maghan Co.
- Large cake—Elektik Maid Bakery.
- Large box of candy—Princess Candy Co.
- Boy's cap—J. F. Murphy Clothing Co.
- Dog harness—Graham Harness Shop.
- Four sacks of flour and 100 lbs. Eggoday scratch feed—Brainerd Flour and Feed Mill.
- Pair wool sport socks—Peterson Clothing Co.
- Wool shirt—John M. Bye Clothing Co.
- Sport sweater—John Carlson and Son.

All dog owners who are entered in the races are asked to meet at the Y. M. C. A. on Saturday afternoon, at 2 o'clock. The bands, boys, dogs, Legionnaires, and all taking part in the derby will meet there and parade through the streets to the race course.

The course will be chosen with a view to the snow situation at the time of the races. It will be within easy walking distance of the Y. M. C. A. so all who are interested may see the parade, and then go to the course.

DOUBLE-HEADER AT THE HIGH
SCHOOL GYM FOR RETURN
GAMES

TRAIN TO BE HELD HALF HOUR
AT DEERWOOD SATUR-
DAY NIGHT

The high school girls' team and the second team are ready for the coming of the Staples foes tonight, when they will line up against the teams from that place in a double-header.

This will be the last game of the season for each team, and fans are urged to get out and help send them on to victory. In the games played at Staples two weeks ago, the second team won by a 24 to 8 margin, while the girls took their game against the Staples girls 11 to 2.

Each team has won a game since then, the girls defeating Motley, and the second team winning from Pequot.

Among those who will play for the seconds are Boyd, scoring ace, Wise, Aro, DeRoche, Putz, Eckholm and Koop.

Word has been received from the N. P. officials that the evening train from Duluth will be held at Deerwood for half an hour to allow those who attend the final tournament game at Crosby to make connections. The regular time for leaving Deerwood is 9:07 P. M. The game starts at 8 o'clock and will be over in time for fans to take a bus to Deerwood and catch the train.

Consolation in Jail

"There's one consolation in being in jail."
"What is that?"
"There's nothing to wake you up in the middle of the night to tell you to go down and be sure the back door's locked."

Easy to Select Husband

"It is not easy for a girl to get a husband."
"Nonsense! A pretty girl can make her choice of four out of every five men she meets."
"But it's the fifth she wants."

Season for Willingness

"Does your wife object to your smoking?"
"No," replied Mr. Meekton; "but she takes a great deal of the pleasure out of it by compelling me to sit in front of the geraniums and blow all the smoke on them to kill the insects."

Whatever It Was Worth

"And now," said the prospective father-in-law, "what about your income?"
The young man smiled engagingly.
"I thought I would leave that to you," he explained.

NOT AFRAID

"She seems to prefer army men to all others."
"They're not afraid to face powder, I guess."

Don't Hang Him

Soviet Guard (to prisoner, a former lumber agent)—Yes, you are condemned to death. Have you any last wish?

Prisoner—It would delight me if my firm was allowed to furnish the gallows.—Sondags-Nisse.

Try Sandpaper

Lady Macbeth—All the perfumes of Arabia will not sweeten this little hand.

Voice From Peanut Gallery—Why don't you try soap, lady?—Alabama Rammer Jammer.

A Clear Case

"Any insanity in the family?" asked the insurance doctor of Mrs. Suffragist.

"Well, no; only my husband imagines he is the head of the house."

His Ambition

First Hobo—Say, ho, wot would yer do if yer had a million or two?

Second Hobo—I'd buy me a freight car just for me own private use.—American Legion Weekly.

Sure Sign

Marie—And do you think he really was in earnest when he proposed?

Mary—I'm sure of it. He even let his cigarette go out.

Unobservant Man

Hub—You are extravagant. You spend money for unnecessary clothes. Wife—Absurd! Unnecessary clothes are not in fashion.

You Said It

Cheap talk marks the cheap man. Slang is the classic of ignorance.—Boston Transcript.

Pays Big Fine

"I always thought if the doctors couldn't help my stomach and liver trouble, nobody else could. It has cost me nine hundred dollars and I have paid my fine. It remained for MAYR'S "One Dose Will Convince" to do the trick. I have been in the best of health since taking it more than a year ago." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy and druggists everywhere. —Advt

PAZO OINTMENT

PARIS MEDICINE CO., Beaumont and Pine Streets, St. Louis, Mo.

LIFE'S LITTLE JESTS

"Can a body eat with these things?" asked an elderly lady, looking at some dental plates.

"Madam," the dentist replied, "mastication can be performed with those with a facility scarcely excelled by that of the product of nature."

"Yes, yes, I know, but can a body eat with 'em?"—Tit-Bits.

HELPING THE PICTURE

She—I can't picture myself as your wife.
He (putting his arms about her)—Just slip into this frame.

Well to Remember

Because one side is all wrong, it doesn't follow that the other side is all right.—Good Hardware.

What Are You Doing For Your Puny Child?

One Boy Gained 11 Pounds in 7 weeks and is now strong and healthy

For weak, frail, under-developed children—and especially those that have rickets, and need a sure builder that promotes the growth of teeth and bones, cod liver oil is the one medicine supreme—nothing helps like it.

But it is nasty and repulsive and evil smelling and nearly always upsets children's stomachs—so now up-to-date chemists advise McCoy's Cod Liver Oil Compound Tablets.

Children love them as they do candy, because they are sugar coated and easy to take. One boy gained 11½ pounds in seven weeks, and is now healthy and happy—thousands of other children have grown strong and robust.

Sixty tablets for 60 cents at H. P. Dunn's, Johnson's Pharmacy and all druggists—but be sure and ask for McCoy's—the original and genuine. Give them to the sickly, frail child for 30 days, and if they don't help—wonderfully, your druggist is authorized to hand you back the money you paid for them.
